

Manifesto

Post of Joint Secretary - Library and Publications

I, Nithilaksh P L (Roll no. 163190014) pledge to do my best as Joint Secretary Library and Publications if elected to the post to ensure that the following are implemented. In addition I am open to your suggestions and I will always lend an ear to your issues to resolve them at the earliest.

- I will ensure a biennial publication of our magazine. The first, a month after new admissions so that they can get acquainted with our department and research and to get them settled in. The final will be an end of year review.
- I will push for biometric access to the library.
- I also would ensure books that are essential for our primary subjects be kept so that it will be easy for students to study. I will push for a fund to implement this.
- I will ask senior graduating students and professors to donate books to the library.
- I will ensure that new research from the department will be published in an online magazine. This is to ensure that there is good publicity of our department and to keep students informed of developments in the department.

These are of course in addition to my general responsibilities (keeping track of borrowed books, collecting theses, etc.) which I pledge to keep to the fullest.
