

Manifesto

I, Shivangi Saklani, 16I190008, first year MSc-PhD student has put forward my candidature for the post of General Secretary, IEORSA. Things that I propose to implement during the tenure, if elected are:

Initiatives:

1. Strengthen Alumni Association by coordinating with the joint secretary HR.
2. Organize Department Trip.
3. Come up with a dedicated team for Magazine that would work over the year.
4. Collaborate with Tech-fest and come up with a one day event focussed on applications of IEOR.
5. Try and organize some National Workshop on specific topics of IEOR.
6. Coordinate with the students of the department and cultural secretary to organize a fun day intra-department event.
7. Organize intra-department sports competitions twice a semester jointly with sports secretary.
8. Dedicate a facebook page for off campus internship opportunities and try to initiate a discussion with faculty about MTech internships.
9. Certificates and incentives to increase participation in department events.
10. Propose to make Pantry (at least of PhD Lab) more productive.
11. Create a separate webpage for ongoing work in different events of the department and their progress report which would also include participation form links.

Basic Duties:

1. Coordinate with joint secretaries for proper functioning of the council.
2. Organize regular GBMs for transparency in the system.
3. Coordinate with Academic Joint secretary to organize two-three orientations initially for better interaction and awareness about the course and the department.
4. Spread awareness about the already existing complain portal on website and update it as well.
5. Update the IEOR website.
6. Be approachable and available.
7. Coordinate with DCs and SCs to resolve issues faced by incoming and current students.
8. Organize Department fresher's and farewell.

Credentials:

1. Actively represented the department in almost all games in PG Sports 2016.
2. Volunteered for IEOR Day and worked in designing the Standee and compering the events of the day.
3. Held the position of Head of Mathematical Research Forum of the Mathematics Society, St. Stephen's College.
